CONTROL

TECHNICAL CATALOGUE

HYDRAULIC PILOT CONTROL

HPVM Pilot Control Valves are part of the extensive range of Hydreco Hydraulics products.

This product, with its single lever control, supported by an extensive range of characteristics and handles is suitable for a wide range of both mobile and industrial applications.

Our engineers can offer special support to optimise this product to suit your application.

BENEFITS

- Compact and lightweight
- Suitable for armrest of console mounting
- Compatible with a wide range of product
- Operator is protected from high temperature components
- Low hysteresis, high accuracy, pressure control curves
- Wide range of electrical options in both standard and multifunctional ergonomic handles
- Low effort lever control
